PROVEN IN TILE - SINCE 1923

So much more than a tagline, Proven in Tile is a proud legacy nearly a century in the making. With our roots in innovation, American Olean® began as The Franklin Tile Company in 1923, as early employees pioneered new manufacturing processes that revolutionized the tile industry. In 1959, the American Olean brand name was born, and continued to flourish over the course of the next several years with the company becoming a leading manufacturer of floor and wall tiles.

Today, American Olean continues to introduce innovative new processes and designs. Ninety-four years in the industry has certainly demonstrated our passion for providing quality products, however it is the unwavering support from our customers and our continued commitment to genuine service that truly makes American Olean Proven in Tile.

AMERICAN OLEAN®

PERFORMANCE COMPARISON

ELEVATE THE SURFACE.

Whether a stunning kitchen creation, a spa bath makeover or a memorable retail environment, it's critical to understand the importance of a functional surface. And with functionality comes performance. A successful design should look beautiful, but also be able to withstand the daily wear and tear it encounters. Selecting materials from tile and backsplash to XL Surfaces like Natural Stone, Quartz and Porcelain slabs that can withstand heat and scratches and are easy to clean, is the ultimate dream for homeowners and commercial outfitters alike.

Of course, the beauty of a room starts with a statement piece, the countertops. From there, the space is your blank canvas – ready for any stretch of your imagination to take flight. From floor tile and backsplash, to innovative trendsetting floor patterns, the possibilities are endless. Daltilo offers all the latest trends in surfaces – all in one convenient place.
