NOTES

Since there are variations in all fired ceramic and natural products, tile and trim supplied for your particular installation may not match samples. Final confirmation should be made from actual tiles and trim prior to installation. Manufactured in accordance with ANSI A137.1 standards.

Not for use on ramps. Water, oil, grease, improper drainage and certain footwear can create slippery conditions. Floor applications expected to be exposed to these conditions require extra caution in product selection.

For additional information refer to "Factors to Consider" at: marazzitile.com/Factors.

Special consideration needs to be given when installing tiles greater than 15 inches. Please refer to marazzitile.com/LargeTiles for more information.

Use of a latex modified thin-set is recommended for installation. For more information, visit marazzitile.com.
