Gentle color movement and the delicate, feathery veining of classic travertine characterize Province. Soft grey, ivory and rust neutrals create easy blends and backdrops that re-define travertine for either rustic or refined interior settings.

With a significantly lower life cycle cost than natural travertine, Province's surface is simple to clean and requires no special maintenance procedures, making it both ecologically and economically appealing to today's homeowners.

Warm, muted shades in travertine-inspired ranges adorn Province's flat surface while a clean, straight edge treatment completes the look. Single bullnose trim is available in each color to perfectly finish projects.
